

# Welding Fabrication Line Card

**Cutting Edge Fabrication (CEF)** is an ISO 9001:2015 certified metal fabrication company specializing in welding medium to large metal structures and components. CEF fabrication services include welding, metal forming, metal bending, plate cutting, state-of-the-art laser plate cutting, plasma cutting, oxy-fuel cutting, shearing, high-performance production sawing, precision CNC machining, complete assembly, and quality inspection. The company has been conducting business since 1990 in Milwaukee, WI.

## Welding and Fabrication Markets

- Aerospace
- Construction
- Energy
- Food Processing
- Heavy Equipment
- Marine
- Material Handling
- Medical
- Military
- Mining
- Oil and Gas
- Pharmaceutical
- Power Generation
- Transportation
- Truck

## Working Materials

- Metal Types: Aluminum, AR plate | abrasion resistant plate, armor plate, carbon steel, heavy steel plate, alloy steel, iron, manganese, nickel-based alloys, sheet metal, stainless steel, and structural steel
- Material Types: Angle, bar, beam, billet, channel, plate, sheet, and tube

## Production Cutting

- Cold and Miter Sawing
- Laser Plate Cutting
- Plasma Cutting | Beveling
- Oxy-Fuel Plate Cutting
- Shearing

## Metalworking

- Bending
- Forming
- Bump Forming
- Rolling

## Welding

- Shielded Metal Arc (SMAW)
- Gas Metal Arc (GMAW/MIG)
- Flux Cored Arc (FCAW)
- Gas Tungsten Arc (GTAW/TIG)

## Certifications

- ISO 9001:2015
- AWS and ASME

[cefabrication.com/iso-certification/](http://cefabrication.com/iso-certification/)

## CNC Machining

- Programming
- Milling
- Pocketing
- Boring
- Drilling
- Tapping

## Assembly & Managed Services

- Complete Assembly
- Heat Treating
- Sandblasting
- Grinding
- Painting | Powder Coating
- Plating | Galvanizing
